## Living The Kai Life

Here's a new place to get some gear for the house. KaiLife – a homeware and lifestyle accessories shop that has opened at the Holland Village shopping mall – offers distinctive pieces ranging from lamps, cushions, candle holders, table napkins and runners, photo albums, art pieces, hand-made jewellery and more.

The shop is run by a father and daughter who have created a collection of things they love. KaiLife also carries Asian-inspired pieces that make great gifts for overseas friends. There is also a customisation service for items such as lamps and cushion covers.

With prices starting from under \$10, it's going to be tough to show restraint. Check out [www.kailife.com.sg](http://www.kailife.com.sg)
